

Free Rain Barrel and Rain Garden Workshop

Learn to manage stormwater using rain barrels and rain gardens. Attendees will learn the basics of how to construct and maintain a rain garden. Attendees will also learn how to construct rain barrels from recycled food grade barrels and receive a barrel to take home.

Following the presentation there will be a planting tutorial at the demonstration rain garden being installed at the Norwood Fire Station on West Chester Pike. Attendees are encouraged to stay and help plant the garden!

WHEN

Saturday, May 16th
9 am to Noon
